DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 8 & 10 are allowed.

The following is an examiner's statement of reasons for allowance:

The instant application claims the copolymer blend has a melting point above 140°C. These limitations are not obvious over the prior art. Chen et al. disclose the melting of their polymer has an upper point of 100°C. Therefore, based on the nearest prior art, one would not expect the copolymer blend of a hexene, propylene and alpha-olefin of claim 1 to have a melting point above 140°C.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see Remarks, filed November 4, 2009, with respect to claims 1 – 8 & 10 have been fully considered and are persuasive. The rejection of claims 1 – 8 & 10 has been withdrawn.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NICOLE T. GUGLIOTTA whose telephone
